HEALTHCARE, CLINICAL APPAREL & HOSPITAL FACILITY SUPPLY CATALOG

Healthcare supplies for a safer tomorrow

A broad-sourcing product-category guide for hospitals, clinics, laboratories, environmental-services teams, and institutional buyers.

MASKS • GOWNS • SCRUBS • GLOVES • JANITORIAL • PAPER PRODUCTS

Request a quote: 954-232-4329 | ssethi@kirpausa.com

Catalog reference IDs are inquiry codes only—not manufacturer SKUs. Product specifications, availability, certifications, packaging, lead times, and pricing are confirmed during the quotation process.

MEDICAL MASKS

PROTECTIVE GOWNS

HEALTHCARE SUPPLIES

CATALOG INDEX

MEDICAL MASKS
Disposable procedure and surgical mask options for clinical environments.

MEDICAL, ISOLATION & SURGICAL GOWNS
Options for different procedures and barrier requirements; verify product-specific claims.

SCRUBS & CLINICAL UNIFORMS
Scrub tops, pants, coordinated sets, fit variations, and facility-specific uniform requests.

HEAD, SHOE, BOOT & SLEEVE COVERS
Disposable protective accessories in a range of styles and coverage options.

WIPES & CLEANING SUPPLIES
Select products according to label claims, surface compatibility, and facility protocols.

HOSPITAL JANITORIAL, ENVIRONMENTAL SERVICES & PAPER PRODUCTS
A broad sourcing guide for hospital EVS, housekeeping, restroom, floor-care, waste-handling, laundry, and facility-maintenance supplies.

RESPIRATORY PROTECTION
Respirator sourcing is model-specific; confirm exact approval, fit, and facility requirements.

LAB COATS & PROTECTIVE APPAREL
Protective apparel for laboratory, clinical, and facility workflows.

EXAMINATION GLOVES
Confirm material, sizes, powder status, intended use, and facility policy.

FACE & EYE PROTECTION
Confirm coverage, intended use, compatibility, and product-specific instructions.

CLINICAL & FACILITY ESSENTIALS
A flexible category for requested healthcare consumables and facility-specific purchasing lists.

Kirpa can review sourcing requests beyond the categories shown. Items are subject to sourcing review and product-specific confirmation.

MEDICAL MASKS

Disposable procedure and surgical mask options for clinical environments.

Ref. ID	Product	Product overview	Options to confirm
MSK-001	Procedure Mask — Ear Loop	Disposable procedure-mask category; confirm intended use and product labeling.	Style, color, size/fit, box count, case quantity
MSK-002	Surgical Mask — Ear Loop	Surgical-style mask option; verify exact standard and performance claims on the selected product.	Product classification, color, packaging, documentation
MSK-003	Surgical Mask — Tie-On	Tie-on configuration for workflows that prefer adjustable ties.	Construction, color, box/case quantity
MSK-004	Disposable Face Mask	General disposable face-mask category; confirm intended use before selection.	Construction, fit, color, packaging
MSK-005	Mask — Color / Facility Preference	Request a preferred color or style where available.	Preferred color, item requirements, order volume
MSK-006	Mask — Bulk / Case Supply	Case-quantity inquiry for recurring or high-volume requirements.	Boxes per case, forecast, delivery cadence

RESPIRATORY PROTECTION

Respirator sourcing is model-specific; confirm exact approval, fit, and facility requirements.

Ref. ID	Product	Product overview	Options to confirm
RSP-001	N95 Respirator — Fold-Flat	Fold-flat style, subject to sourcing and model confirmation.	Exact manufacturer/model, approval status, size/fit
RSP-002	N95 Respirator — Cup Style	Cup-style configuration, subject to sourcing and model confirmation.	Exact manufacturer/model, approval status, size/fit
RSP-003	N95 Respirator — Other Approved Style	Request a facility-approved model or equivalent only after approval review.	Required model, approval documentation, packaging
RSP-004	Respirator — Facility-Specified Item	Sourcing review for a model on a facility-approved list.	Manufacturer, model/SKU, documentation, quantity

GWN-003	AAMI Level 3 Gown	Moderate-risk barrier category; verify validated product claims.	Barrier claims, material, size, closure, cuff, packaging

Ref. ID	Product	Product overview	Options to confirm
GWN-004	AAMI Level 4 Gown	High-level barrier category; verify validated claims and intended use.	Exact model, test documentation, sterile status, size
GWN-005	Disposable Isolation Gown	Disposable isolation styles may vary by material, coverage, and closure.	Size range, sleeve/cuff, closure, material, fluid resistance
GWN-006	Disposable Surgical Gown	Disposable surgical-gown category; exact barrier claims and intended use must be verified.	Material, barrier classification, size, closure, packaging
GWN-011	Sterile Surgical Gown	Surgical gown supplied sterile where the selected product is labeled accordingly.	Sterile status, barrier claims, size, packaging
GWN-012	Non-Sterile Surgical Gown	Non-sterile surgical-gown option where appropriate for the intended workflow.	Sterile status, intended use, material, size
GWN-013	Reinforced Surgical Gown	Reinforced-panel style, subject to availability and product-specific documentation.	Reinforcement zones, barrier claims, size, sterile status
GWN-014	Standard Surgical Gown	Standard construction surgical gown; verify the selected model's product claims.	Material, barrier claims, size, closure, sterile status
GWN-015	Surgical Gown — Size Range / Specialty Fit	Request size or fit variations available from the selected manufacturer.	Required size range, fit, sleeve/cuff, model
GWN-007	Chemotherapy-Rated Gown	Confirm suitability for the specific drugs and task using product-specific permeation data and manufacturer instructions.	Product model, drug-specific data, task, size, packaging
GWN-008	Patient / Examination Gown	Patient-care gown options, subject to sourcing and availability.	Reusable/disposable, size, fabric, closure, packaging
GWN-009	Reusable Gown	Options may be reviewed where available and appropriate for laundering protocols.	Material, sizing, laundering instructions, lifecycle needs
GWN-010	Gown — Facility-Specified Item	Request an exact gown or approved item from a facility product list.	Manufacturer/model, required claims, size, quantity

LAB COATS & PROTECTIVE APPAREL

Protective apparel for laboratory, clinical, and facility workflows.

Ref. ID	Product	Product overview	Options to confirm
APP-001	Disposable Lab Coat	Disposable coat category for laboratory, clinical, or facility workflows.	Material, size range, length, closure, cuffs
APP-002	Reusable Lab Coat	Reusable styles may vary by fabric, length, pocket layout, and closure.	Fabric, size, color, laundering requirements
APP-003	Lab Jacket / Isolation Jacket	Jacket-style protective apparel for facility use, subject to availability.	Material, sleeve, closure, size range
APP-004	Protective Cover Gown	Additional cover-gown styles may be sourced on request.	Coverage, material, sizing, intended task
APP-005	Disposable Protective Apron	Apron options for specified facility workflows, subject to availability.	Material, length, thickness, fluid-resistance needs
APP-006	Protective Apparel — Custom Request	Use for facility-specific garments or required size runs.	Description/photo, material, sizes, required features

SCRUBS & CLINICAL UNIFORMS

Scrub tops, pants, coordinated sets, fit variations, and facility-specific uniform requests.

Ref. ID	Product	Product overview	Options to confirm
SCR-001	Classic V-Neck Scrub Top	Traditional V-neck scrub top for clinical and healthcare workwear.	Unisex/women's/men's cut, size range, color, pocket layout
SCR-002	Mock-Wrap Scrub Top	Mock-wrap styling, subject to available manufacturer options.	Fit, size range, color, neckline, pockets
SCR-003	Round-Neck Scrub Top	Round-neck scrub-top variation where available.	Fit, fabric, color, size range, pocket layout
SCR-004	Utility / Multi-Pocket Scrub Top	Scrub top with additional utility pockets, depending on model.	Pocket configuration, fit, fabric, color, size
SCR-005	Performance / Stretch Scrub Top	Stretch-fabric style, if available; confirm fabric composition and care instructions.	Fabric blend, stretch, fit, color, size
SCR-006	Classic Straight-Leg Scrub Pants	Straight-leg scrub pants in available waist and length ranges.	Waist, inseam, rise, drawstring/elastic, color
SCR-007	Jogger Scrub Pants	Jogger-style scrub pants with cuffed ankle, where available.	Fit, cuff, waist, inseam, pockets, color
SCR-008	Cargo Scrub Pants	Cargo-style pants with utility-pocket options.	Pocket layout, fit, waist/inseam, fabric, color
SCR-009	Elastic-Waist Scrub Pants	Elastic-waist style, subject to model availability.	Waist, inseam, fit, fabric, color

Ref. ID	Product	Product overview	Options to confirm
SCR-010	Drawstring-Waist Scrub Pants	Drawstring-waist style, subject to model availability.	Waist, inseam, drawstring design, fit, color
SCR-011	Scrub Set — Top & Pants	Coordinated two-piece scrub set, where offered by the manufacturer.	Top/pant style, size combination, color, fabric
SCR-012	Women's-Fit Scrubs	Scrub tops and pants cut for a women's fit, depending on brand and model.	Size chart, fit, top/pant style, color
SCR-013	Men's-Fit Scrubs	Scrub tops and pants cut for a men's fit, depending on brand and model.	Size chart, fit, top/pant style, color
SCR-014	Unisex Scrubs	Unisex scrub garments or sets, subject to availability.	Size chart, top/pant style, color, fabric
SCR-015	Maternity Scrub Top	Maternity-fit top options where available.	Sizing, adjustment features, fabric, color
SCR-016	Warm-Up Jacket / Scrub Jacket	Layering jacket for clinical settings, subject to availability.	Style, knit/woven fabric, pockets, size, color
SCR-017	Long-Sleeve Scrub Top	Long-sleeve variation where available and appropriate for facility policy.	Sleeve length, fabric, fit, color, size
SCR-018	Tall / Petite Scrub Lengths	Length options may be available for selected models.	Brand/model, inseam, fit, size range
SCR-019	Plus-Size Scrub Options	Extended sizing may be available for selected products.	Brand/model, size chart, fit, color
SCR-020	Scrubs — Color-Coded Teams	Request department- or role-specific colors where available.	Color policy, department, garment styles, quantity
SCR-021	Scrubs — Bulk / Staff Uniform Order	Multi-person or recurring scrub order inquiry.	Size matrix, color matrix, quantities, delivery timeline
SCR-022	Scrubs — Facility-Specified Item	Sourcing review for a required brand, style, or approved uniform.	Brand/model, photo or item code, specs, quantity

EXAMINATION GLOVES

Confirm material, sizes, powder status, intended use, and facility policy.

Ref. ID	Product	Product overview	Options to confirm
GLV-001	Latex Examination Gloves	Confirm product labeling, powder status, size, and latex-related facility policies.	Powdered/powder-free, sizes, box/case count, thickness
GLV-002	Examination Gloves — Other Material by Request	Sourcing review when a non-latex material is required.	Required material, sizes, intended use, documentation
GLV-003	Gloves — Bulk / Recurring Supply	For planned usage and replenishment review.	Size mix, monthly forecast, boxes per case, delivery schedule

HEAD, SHOE, BOOT & SLEEVE COVERS

Disposable protective accessories in a range of styles and coverage options.

Ref. ID	Product	Product overview	Options to confirm
ACC-001	Bouffant Cap	Disposable bouffant-style head cover.	Size, material, color, box/case quantity
ACC-002	Disposable Head Cover — Other Style	Other head-cover designs may be reviewed on request.	Style, fit, material, packaging
ACC-003	Shoe Cover	Confirm material, fit, and whether a slip-resistant sole or fluid resistance is required.	Size/fit, sole grip, material, packaging
ACC-004	Knee-High Boot Cover	Boot-cover style for specified coverage needs.	Height, closure, fit, sole grip, material
ACC-005	Disposable Sleeve Cover	Sleeve protection in available materials and sizes.	Length, material, fit, elastic/closure
ACC-006	Disposable Apron	Protective apron category; confirm task and material needs.	Material, length, thickness, quantity
ACC-007	PPE Accessories — Facility-Specified	For additional disposable accessories not separately listed.	Item description, intended use, product requirements

FACE & EYE PROTECTION

Confirm coverage, intended use, compatibility, and product-specific instructions.

Ref. ID	Product	Product overview	Options to confirm
EYE-001	Face Shield	Options may vary by coverage, anti-fog features, and disposable/reusable construction.	Coverage, anti-fog requirement, reuse/disposal, packaging
EYE-002	Eye Protection — Facility-Specified	Sourcing review for eye-protection items on a facility-approved list.	Required model, coverage, compatibility, documentation

WIPES & CLEANING SUPPLIES

Select products according to label claims, surface compatibility, and facility protocols.

Ref. ID	Product	Product overview	Options to confirm
WIP-001	Disinfectant Wipes	Confirm label claims and suitability for the intended use and surfaces.	Exact product, label claims, contact time, container count
WIP-002	Healthcare Surface Wipes	Review for facility surface-cleaning workflows; verify product label and compatibility.	Intended surface, label, wipe count, container format
WIP-003	General-Purpose Cleaning Wipes	Confirm labeled intended use and surface compatibility.	Product type, container/refill, wipe count, case quantity
WIP-004	Wipes — Canister Format	Canister-format inquiry for a selected wipe product.	Canister size, count, case pack, product model
WIP-005	Wipes — Refill Format	Refill-format inquiry where the selected product supports it.	Compatible dispenser/canister, refill size, case quantity
WIP-006	Cleaning Supplies — Facility-Specified	Additional cleaning products may be reviewed on request.	Product name, label, intended use, volume

CLINICAL & FACILITY ESSENTIALS

A flexible category for requested healthcare consumables and facility-specific purchasing lists.

Ref. ID	Product	Product overview	Options to confirm
FAC-001	Liquid Clinical Soap	Confirm formulation, container size, refill format, and dispenser compatibility.	Product/formulation, size, refill/container, case quantity
FAC-002	Soap Refill / Dispenser-Compatible Supply	Sourcing review for a compatible refill or facility-specified item.	Dispenser model, refill size, product requirements
FAC-003	Additional Healthcare Consumables	Use for items not listed in the catalog that Kirpa can review for sourcing.	Product description, manufacturer/model, quantity
FAC-004	Facility-Approved Product List Review	Send a purchasing list for item-by-item sourcing review.	Spreadsheet/list, brand restrictions, delivery location
FAC-005	Custom / Special Order Request	For a product identified by a sample, photo, manufacturer, or model number.	Description, specifications, estimated volume, target date

HOSPITAL JANITORIAL, ENVIRONMENTAL SERVICES & PAPER PRODUCTS

A broad sourcing guide for hospital EVS, housekeeping, restroom, floor-care, waste-handling, laundry, and facility-maintenance supplies.

Ref. ID	Product	Product overview	Options to confirm
JAN-001	Trash Can Liners — Small	General-purpose liners for small waste bins; select by bin size and use.	Dimensions, thickness/gauge, color, roll count, case quantity
JAN-002	Trash Can Liners — Medium	Liners for common room, office, and clinical-area waste bins.	Dimensions, thickness/gauge, color, roll count, case quantity
JAN-003	Trash Can Liners — Large	Large-capacity liners for facility waste containers.	Dimensions, thickness/gauge, color, roll count, case quantity
JAN-004	Heavy-Duty Trash Can Liners	Higher-strength liner options for heavier routine waste loads.	Dimensions, resin/material, gauge, color, load requirements
JAN-005	Clear Trash Liners	Clear liner options where facility policy permits.	Dimensions, thickness, transparency, roll/case quantity
JAN-006	Colored Trash Liners	Color options for facility organization or designated waste streams.	Color, dimensions, gauge, intended waste stream, policy requirements
JAN-007	Red Regulated-Waste Bags — Facility-Specified	Sourcing review for regulated-waste bags matching applicable facility requirements.	Required color/markings, dimensions, thickness, applicable requirements
JAN-008	Multifold Paper Towels	Folded paper towels for compatible dispensers in restrooms and clinical support areas.	Fold type, sheet size, ply, color, case count, dispenser compatibility
JAN-009	C-Fold Paper Towels	C-fold towel options for compatible wall or countertop dispensers.	Sheet size, ply, color, case count, dispenser compatibility
JAN-010	Hardwound Roll Paper Towels	Roll towels for compatible manual or controlled-dispense systems.	Roll width/length, core size, ply, color, case quantity
JAN-011	Centerpull Paper Towels	Center-pull rolls for compatible dispensers and high-use areas.	Roll dimensions, sheet count/length, ply, dispenser compatibility
JAN-012	Jumbo Roll Toilet Tissue	High-capacity restroom tissue rolls for compatible dispensers.	Roll diameter, width, core, ply, sheet length, case count
JAN-013	Standard Toilet Tissue	Standard tissue rolls for facility restrooms and compatible dispensers.	Ply, roll size, sheet count, core, case quantity
JAN-014	Facial Tissue	Boxed facial tissue for patient rooms, offices, and common areas.	Sheet count, ply, box style, case quantity

Ref. ID	Product	Product overview	Options to confirm
JAN-015	Paper Towel Dispensers	Compatible dispensers for multifold, roll, or centerpull towels.	Towel format, capacity, mounting, finish, locking needs
JAN-016	Toilet Tissue Dispensers	Dispensers for standard or jumbo-roll tissue systems.	Roll format, capacity, mounting, finish, locking needs
JAN-017	Hand Soap & Soap Refills	Hand-washing products and refills for facility-approved dispensers.	Formulation, fragrance, container/refill size, dispenser compatibility
JAN-018	Foam Soap Refills	Foam hand-soap refills for compatible dispensing systems.	Brand/system, cartridge size, formulation, case quantity
JAN-019	Hand Sanitizer & Refills	Hand sanitizer products for approved locations and dispenser systems.	Formulation, container size, refill type, facility requirements
JAN-020	Microfiber Cleaning Cloths	Reusable cloth options for routine environmental cleaning.	Dimensions, weave, color coding, pack size, laundering requirements
JAN-021	Mop Heads & Refills	Replacement mop heads for compatible floor-cleaning systems.	Material, size, attachment style, color, case quantity
JAN-022	Mop Handles, Buckets & Wringers	Floor-care tools and accessories for routine facility cleaning.	Handle length, mop compatibility, bucket capacity, wringer style
JAN-023	Microfiber Mops & Flat Mop Systems	Flat-mop and microfiber system options for facility cleaning programs.	Frame size, pad material, handle, replacement-pad availability
JAN-024	Brooms, Brushes & Dustpans	Routine sweeping and detail-cleaning tools.	Brush type, handle length, bristle material, pack quantity
JAN-025	Cleaning Chemicals & Floor Care	Facility-specified cleaners, degreasers, glass cleaners, and floor-care products.	Exact product, surface compatibility, label directions, dilution, case quantity
JAN-026	Wet-Floor Signs & Cleaning Accessories	Safety signs and related janitorial accessories for maintenance workflows.	Sign type, language, size, quantity, facility requirements
JAN-027	Healthcare-Grade Surface Disinfectant	Surface disinfectant category for approved environmental-services workflows; select only according to product label and facility protocol.	Exact product/registration where applicable, organism claims, contact time, surfaces, ready-to-use/concentrate
JAN-028	Neutral Floor Cleaner	Routine floor-cleaning products for compatible flooring and facility maintenance programs.	Floor type, dilution, container size, finish compatibility, case quantity
JAN-029	Floor Finish / Floor Polish	Floor finish options for facility-approved floor-care programs.	Floor type, gloss level, solids, coverage, application method, packaging
JAN-030	Floor Finish Remover / Stripper	Products for removing compatible floor finishes as part of a specified maintenance process.	Floor type, dilution, dwell time, safety documentation, container size
JAN-031	Carpet Cleaner / Spot Remover	Carpet and upholstery cleaning products for facility-approved applications.	Carpet/fiber compatibility, extraction or spot-use format, dilution, packaging
JAN-032	Glass & Window Cleaner	Glass and compatible hard-surface cleaner category for facility use.	Ready-to-use/concentrate, surface compatibility, fragrance, container size
JAN-033	Degreaser / Heavy-Duty Cleaner	Cleaner category for selected maintenance and non-clinical soil-removal tasks.	Surface, soil type, dilution, contact time, safety data, packaging
JAN-034	Restroom Cleaner	Products for routine restroom cleaning, selected for labeled surfaces and facility protocols.	Surface compatibility, formulation, dilution, container size, case quantity
JAN-035	Toilet Bowl Cleaner	Toilet bowl cleaning products for facility-approved restroom programs.	Bottle format, formulation, compatibility, label directions, case quantity
JAN-036	Descaler / Lime-Scale Remover	Products for mineral deposit removal on compatible fixtures and surfaces.	Surface compatibility, concentration, application method, safety documentation
JAN-037	Drain Cleaner / Drain Maintenance	Facility-specified products for approved drain-maintenance applications.	Product type, drain/material compatibility, usage directions, restrictions
JAN-038	Odor Control Products	Odor-control products for restrooms, waste areas, and other facility-approved locations.	Format, fragrance preference, coverage area, dispenser compatibility
JAN-039	Air Freshener Refills & Dispensers	Air-care products and compatible dispensing systems for designated areas.	Refill type, dispenser model, fragrance, mounting, case quantity
JAN-040	Enzymatic Cleaner	Enzymatic cleaning category for specific approved uses; intended application must be verified.	Intended use, surface/material, formulation, label directions, packaging
JAN-041	Cleaning Chemical Dilution Systems	Dilution and dispensing equipment for compatible facility cleaning products.	System/brand, concentrate compatibility, dilution settings, wall-mount needs
JAN-042	Chemical Spray Bottles & Labels	Reusable or disposable bottles and labeling supplies for facility-approved chemical handling.	Bottle capacity, trigger type, chemical compatibility, label format
JAN-043	Cleaning Chemical Storage & Caddies	Caddies, racks, and accessories for organizing facility cleaning products.	Capacity, dimensions, material, mounting, compatibility with workflow
JAN-044	Housekeeping / EVS Carts	Environmental-services carts for cleaning tools, consumables, and routine room servicing.	Cart size, shelves, bag holders, locking storage, accessory configuration
JAN-045	Janitorial Utility Carts	Utility carts for transporting supplies and equipment around healthcare facilities.	Load capacity, shelf configuration, wheels, dimensions, accessories
JAN-046	Linen / Laundry Carts	Carts for moving clean or soiled linen in accordance with facility separation procedures.	Capacity, frame material, cover/lid, bag compatibility, clean/soiled workflow

Ref. ID	Product	Product overview	Options to confirm
JAN-047	Waste Collection Carts	Carts for routine waste collection in approved facility workflows.	Capacity, lid, wheels, bag/liner fit, cleaning requirements
JAN-048	Janitorial Buckets & Pails	Buckets and pails for cleaning and maintenance workflows.	Capacity, material, wringer compatibility, color, handle type
JAN-049	Mop Buckets with Wringers	Bucket-and-wringer systems for compatible mop styles.	Capacity, wringer type, mop compatibility, wheels, replacement parts
JAN-050	Wet Mop Heads — Cotton / Blend	Traditional mop-head options for compatible handles and wringers.	Material, weight, band/attachment style, size, laundering requirements
JAN-051	Disposable Mop Pads	Single-use mop pads for compatible flat-mop systems and designated workflows.	Frame compatibility, dimensions, material, absorbency, pack/case quantity
JAN-052	Reusable Microfiber Mop Pads	Reusable pads for compatible microfiber floor-cleaning systems.	Dimensions, attachment style, color coding, laundering requirements
JAN-053	Dust Mops & Dust-Mop Refills	Dust-mop heads and replacement covers for compatible frames.	Frame size, material, disposable/reusable, laundering, case quantity
JAN-054	Floor Squeegees & Floor Scrapers	Tools for moving water or removing compatible residues from approved floor surfaces.	Blade width/material, handle length, floor compatibility, replacement blades
JAN-055	Deck Brushes & Grout Brushes	Brushes for detail cleaning in approved floor, tile, and maintenance applications.	Bristle stiffness/material, head size, handle, color coding
JAN-056	Scrub Pads & Floor Pads	Pads for compatible manual or machine-assisted cleaning and floor-care systems.	Color/abrasion level, dimensions, machine compatibility, use instructions
JAN-057	Sponges & Non-Scratch Scouring Pads	General cleaning sponges and pads for compatible surfaces.	Material, abrasion level, dimensions, pack quantity, surface compatibility
JAN-058	Utility / Chemical-Resistant Gloves for EVS	Reusable utility gloves for approved cleaning tasks; select according to chemical and task requirements.	Material, cuff length, sizes, chemical compatibility, packaging
JAN-059	Disposable Cleaning Gloves	Disposable glove category for routine cleaning tasks where appropriate.	Material, sizes, thickness, powder status, task suitability, case quantity
JAN-060	Protective Aprons for Environmental Services	Aprons for specified cleaning and housekeeping tasks.	Disposable/reusable, material, coverage, closure, size, packaging
JAN-061	Disposable Coveralls for Cleaning / Maintenance	Protective coverall category for specified maintenance or cleaning tasks.	Material, size range, closure, coverage, task requirements
JAN-062	Eye Protection for Cleaning Teams	Protective eyewear options for specified cleaning tasks and facility protocols.	Style, splash coverage, anti-fog features, fit, reuse/disposal
JAN-063	Spill Response Kits	Facility-specified spill kits for approved response procedures.	Spill type, kit capacity, contents, replenishment items, facility protocol
JAN-064	Absorbent Pads & Spill Absorbents	Absorbent materials for designated facility cleanup and maintenance needs.	Material, dimensions, absorbency, compatible liquids, pack quantity
JAN-065	Laundry Bags & Hamper Liners	Bags and liners for compatible linen collection systems.	Dimensions, material, reusable/disposable, color, closure, cart compatibility
JAN-066	Soiled Linen Bags — Facility-Specified	Sourcing review for bags used in the facility's approved soiled-linen workflow.	Required color/markings, dimensions, material, closure, facility requirements
JAN-067	Laundry / Linen Cart Covers	Covers for compatible carts where required by facility workflow.	Cart dimensions, material, cleanability, closure, quantity
JAN-068	Waste Bins & Step-On Trash Cans	Waste containers for patient rooms, restrooms, offices, and support spaces.	Capacity, lid/step mechanism, material, color, liner fit
JAN-069	Recycling Bins & Sorting Stations	Containers for facility recycling and waste-sorting programs.	Capacity, opening style, labels/colors, indoor/outdoor, quantity
JAN-070	Sharps Containers — Facility-Specified	Sourcing review for compatible sharps containers specified by the facility; verify applicable requirements and intended use.	Capacity, mounting, closure, model compatibility, facility specifications
JAN-071	Regulated Medical Waste Containers & Accessories	Facility-specified containers and accessories for regulated waste streams.	Waste stream, container type, labeling, dimensions, applicable requirements
JAN-072	Biohazard / Regulated Waste Labels	Labels and identification supplies for approved waste-handling workflows.	Label type, size, color, wording, adhesive, facility standard
JAN-073	Hand Hygiene Dispensers	Dispensers for compatible soap or sanitizer products in approved locations.	Product system, manual/touch-free, mounting, capacity, refill compatibility
JAN-074	Touch-Free Soap / Sanitizer Dispensers	Automatic dispensing systems for compatible products where specified.	System/model, power source, mounting, refill type, capacity
JAN-075	Paper Towel & Tissue Dispenser Keys / Parts	Replacement keys and compatible accessories for installed dispenser systems.	Manufacturer/model, part description, dispenser type, quantity
JAN-076	Dispenser-Compatible Paper Refills	Paper refills for facility-installed towel and tissue dispenser systems.	Dispenser brand/model, roll/fold format, dimensions, case quantity
JAN-077	Toilet Seat Covers & Dispensers	Seat-cover refills and compatible dispensers for designated restrooms.	Fold/format, dispenser model, material, case quantity
JAN-078	Urinal Screens & Deodorizers	Restroom accessories for compatible fixtures and facility-approved use.	Type, fragrance, replacement interval per label, fixture compatibility

Ref. ID	Product	Product overview	Options to confirm
JAN-079	**Disposable Toilet / Restroom Cleaning Tools**	Disposable or replaceable cleaning heads and tools for compatible systems.	System compatibility, head type, handle, disposal requirements
JAN-080	**Vacuum Cleaners & Replacement Bags / Filters**	Vacuum equipment and consumables for facility-approved floor-care programs.	Model, filtration requirements, bag/filter part, flooring, accessories
JAN-081	**Floor Machines / Auto-Scrubbers — Sourcing Review**	Equipment sourcing review for facility floor-care programs.	Machine type, cleaning path, power/battery, floor type, service/support needs
JAN-082	**Floor Machine Brushes & Squeegee Blades**	Replacement consumables for compatible floor machines.	Machine manufacturer/model, part number, dimensions, material
JAN-083	**Ladders & Step Stools for Facility Maintenance**	Maintenance access equipment for approved facility tasks.	Height, load rating, material, storage needs, facility requirements
JAN-084	**Cleaning Signs & Area-Closure Barriers**	Signs and barriers for communicating cleaning activity or restricting access.	Sign type, wording/language, dimensions, portability, quantity
JAN-085	**Janitorial Starter Kits / Department Bundles**	Curated supply bundle sourcing for EVS teams, departments, or new facility locations.	Required products, preferred brands, quantities, budget target, delivery cadence

REQUESTING A QUOTE

01 — Product: Reference ID, product name, manufacturer/model, or facility-approved item list.

02 — Specifications: Required performance claims, material, sizes, style, packaging, and documentation requirements.

03 — Quantity: Estimated order volume, box/case quantities, size mix, and recurring usage if applicable.

04 — Delivery: Delivery location, requested date, receiving restrictions, and preferred cadence.

05 — Confirmation: Kirpa reviews sourcing and confirms product details, availability, lead time, and pricing in the quote.

BULK, STORAGE & SCHEDULED DELIVERY

For qualifying arrangements, ask about volume purchasing, storage of eligible products, and delivery in smaller scheduled quantities. Terms and eligibility are confirmed individually.

IMPORTANT PRODUCT NOTES

- Catalog reference IDs are inquiry codes only; they are not manufacturer SKUs.
- Kirpa can review requests beyond the listed categories. Items are subject to sourcing review, manufacturer availability, and product-specific confirmation.
- Verify the selected product's manufacturer, model, labeling, intended use, specifications, regulatory status, certifications, and documentation before ordering.
- Use PPE and cleaning products according to manufacturer instructions and facility policy. Photographs, where used, are illustrative and may not represent a specific SKU.
